

Maintenance Schedule For Your Car

Maintaining your vehicle regularly is the best way to keep it at its peak performance. You can avoid expensive repairs and will be less likely to have your car break down if you maintain it and perform small repairs when needed. Read the owner's manual to find out what the manufacturer of your vehicle recommends and follow their instructions.

This maintenance schedule will help you keep your vehicle in good shape:

ONCE A WEEK

- Tires
- Oil levels
- Headlights
- Check engine light
- Windshield washer

EVERY 3,000 MILES

- Engine air filter
- Exhaust
- Power steering fluid
- Transmission fluid
- Tires
- Change oil & filter
- Headlights

ONCE A YEAR

- Transmission fluid
- Battery
- Belts
- Cabin air filter
- Chassis
- Brakes
- Engine air filter
- Wheel alignment
- Steering
- Suspension
- Wiper blades
- Coolant

Remember to take care of your vehicle and it will take good care of you, too!
